SUMMARY

I'm a B.Tech graduate in Computer Engineering with 1 year and 6 month of hands-on experience in front-end development, specializing in Angular and React.js. I have a strong passion for creating responsive, user-friendly web applications and enjoy turning complex problems into simple, elegant solutions.With a solid understanding of modern JavaScript frameworks, RESTful API integration, and UI/UX best practices, I strive to deliver high-quality code and seamless user experiences.where I contribute to building scalable and efficient web platforms.I am always eager to learn new technologies, improve my skills, and collaborate with cross-functional teams to build impactful digital products

EDUCATION

03/2017 - 03/2018

10th Board
Noble Public School
- Percentage : 72%

03/2019 - 03/2020

12th Board
Ashadeep IIT
- Percentage : 58%

08/2020 - 06/2024

B.TECH | Computer Engineering
Atmiya University
CGPA - **7.56** / **10**

EXPERIENCE

03/2025 - 06/2025

Surat, India

Angular Developer
Aeybit

As an Angular Developer at Aeybit, I specialize in building dynamic and responsive web applications using Angular. I collaborate closely with UI/UX designers and backend developers to deliver high-quality, scalable, and maintainable front-end solutions.
- Develop and maintain web applications using Angular framework.
- Integrate RESTful APIs and ensure seamless communication between front-end and back-end systems.
- Write clean, reusable, and well-documented code.
- Optimize applications for maximum speed and scalability.
- Participate in code reviews, debugging, and performance tuning.
- Stay up-to-date with the latest Angular trends, tools, and best practices.

01/2025 - 03/2025

Surat, India

Angular Developer (Intern Part-time)
Adis Technologies

As an Angular Developer Intern at Adis Technologies, I have been actively involved in building and maintaining scalable web applications using Angular and related front-end technologies. My role focuses on creating user-friendly interfaces, integrating APIs, and contributing to the development lifecycle in a collaborative team environment.
- Highlight your accomplishments, using numbers if possible.

01/2024 - 12/2024

Surat, India

React Developer + Web designing
DK Infoway

As a React Developer at DK Infoway, I am responsible for developing dynamic and high-performance web applications using React.js. I work closely with designers and backend teams to create responsive, scalable, and maintainable front-end solutions that enhance user experience.
- Develop and maintain user interfaces using React.js and related libraries.
- Build reusable components and front-end libraries for future use.
- Integrate RESTful APIs and manage state using tools like Redux or Context API.
- Optimize applications for speed and scalability.
- Making Design for websites

CERTIFICATION

Front-End Development
Skillqode Multimedia Institute

Frontend Languages

| HTML | CSS | Bootstrap | Sass | Tailwind Css | Javascript | Typescript | React js | Angular |

| Angular Material | Prime Ng | Git - Github | Canva | Figma | Adobe Photoshop |

PROJECTS

Portfolio Website

📅 2025   📍 Surat

🔗 https://ombutani.netlify.app/

Developed a responsive and modern portfolio website using **React.js** and **Tailwind css**. The site showcases my web development skills, projects, and experience. Leveraged ShadCN's accessible and customizable component library to build a clean, user-friendly interface with smooth navigation and interactive elements. Fully optimized for performance and responsive across all devices.

Import Export Website

📅 2025   📍 Surat

🔗 https://omenterprises23.netlify.app/

Built a professional Import/Export business website using **React.js** and **Tailwind css**. The platform features a clean, responsive design and highlights the company's services, product categories, and contact information. Utilized ShadCN's modern components for a smooth and accessible user experience. Focused on performance, responsiveness, and a user-centric layout to enhance business visibility online.

Faizur Website Clone Template

📅 2024   📍 Surat

Cloned the **Faizur website template** using **HTML**, **CSS**, and **Tailwind CSS** to replicate its modern, responsive design. Focused on clean UI structure, mobile-first responsiveness, and consistent styling with Tailwind utility classes. This project showcases my front-end development skills in layout replication, responsive design, and pixel-perfect UI implementation.

Ochi website Clone Template

📅 2024   📍 Surat

Recreated the **Ochi website template** using **HTML**, **CSS**, **Tailwind CSS**, **Locomotive.js**, and **GSAP** to achieve a modern, animated, and smooth-scrolling user interface. Focused on replicating advanced scroll effects, animations, and responsive layout to match the original design. This project highlights my skills in interactive UI development, animation integration, and clean front-end architecture.

Docs Design

📅 2024   📍 Surat

Developed a clone of the **Docs website template** using **HTML**, **CSS**, **Tailwind CSS**, and **Framer Motion**. Implemented smooth animations and **draggable content** to enhance interactivity and user experience. The project showcases responsive design, clean layout structuring, and advanced motion features, demonstrating my front-end development skills in UI animation and component interaction.
